

Transport conditions for the acceptance of Dangerous Goods

Based on the IATA Dangerous Goods Regulations the articles in the following table, though falling under these Regulations, may be transported on Austrian Airlines Group operated flights, provided the listed transport conditions are fulfilled.

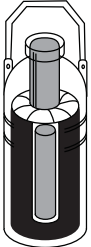

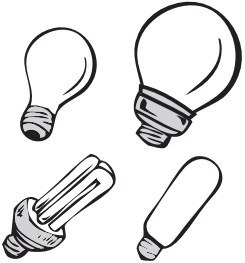

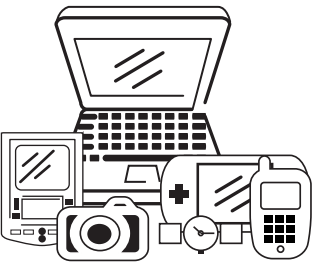

Please note:

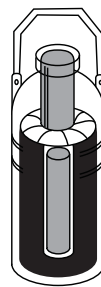

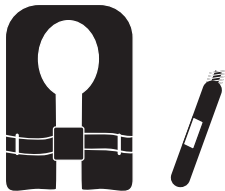

- The restrictions for liquids, gels and aerosols in your hand baggage are also applicable to these listed articles. For details refer to: http://www.austrian.com/Info/FlightPreparation/Baggage.aspx?cc=AT&sc_lang=en
- Listed articles requiring the approval of the operator have to be pre-notified at specialcases@austrian.com for further clarification at least 48 hours prior to departure.

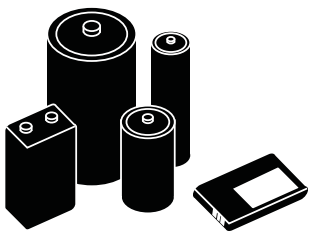

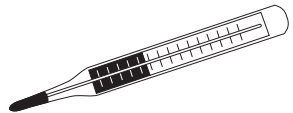

Good/article	Transport conditions	In checked baggage		
		In hand baggage		
		Pre-notification required		
	<p>Aerosols for sporting or home use</p> <ul style="list-style-type: none"> With no subsidiary risk, containing non-flammable, non-toxic gas only. The release valves must be protected by a cap or other suitable means to prevent inadvertent release of the contents. <p><i>NOTE:</i> See also the conditions for non-radioactive medicinal or toilet articles as the total net quantity carried per person is limited.</p>	No	No	Yes
	<p>Alcoholic beverages</p> <ul style="list-style-type: none"> In retail packagings, containing not more than 70% alcohol by volume, and in receptacles not exceeding 5L. A total net quantity of 5L per person. 	No	Yes	Yes
	<p>Avalanche rescue backpack, equipped with a pyrotechnic trigger</p> <ul style="list-style-type: none"> 1 backpack per passenger. The pyrotechnic trigger mechanism containing less than 200mg net of Div. 1.4S and less than 250 mL of compressed gas in Div. 2.2. The backpack must be packed in such a manner that it cannot be accidentally activated. The airbags within the backpacks must be fitted with pressure relief valves. 	Yes	Yes	Yes

		In hand baggage			
		Pre-notification required			
	Lithium ion batteries	<ul style="list-style-type: none"> For the operation of consumer electronic devices, and with a Watt-hour rating exceeding 100 Wh but not exceeding 160 Wh. No more than 2 spare batteries must be carried in carry-on baggage only: <ul style="list-style-type: none"> - these batteries must be individually protected to prevent short circuits. Equipment containing such batteries may be in checked or in carry-on baggage. 	Yes	Yes	No
	Matches	Refer to the transport conditions of safety matches.	No	No	No
	Medical or clinical thermometer, containing mercury	<ul style="list-style-type: none"> 1 thermometer per passenger for personal use, must be carried in its protective cover. 	No	Yes	Yes
	Medical oxygen	Refer to the transport conditions of oxygen or air, gaseous, cylinders.	Yes	Yes	Yes

Good/article	Transport conditions	In checked baggage			
		In hand baggage			
		Pre-notification required			
	Medicinal or toilet articles	Including all non-radioactive medicinal or toilet articles (including aerosols) such as hair sprays, perfumes, colognes and medicines containing alcohol: <ul style="list-style-type: none"> the total net quantity of all above mentioned articles must not exceed 2 kg (4.4 lb) or 2 L (2 qt). the net quantity of each single article must not exceed 0.5 kg (1 lb) or 0.5 L (1 pt). Release valves on aerosols must be protected by a cap or other suitable means to prevent inadvertent release of the contents. NOTE: the restrictions for liquids, gels and aerosols in carry-on baggage have to be observed.	No	Yes	Yes
	Mercury barometer or thermometer	Only, if carried by representative of a government weather bureau or similar official agency.	Yes	Yes	No
	Non-flammable gas cylinder fitted into a life jacket	<ul style="list-style-type: none"> Maximum 2 small cylinders (fitted into a life jacket) per passenger Containing carbon dioxide or other non-flammable, non-toxic gas Up to 2 spare cartridges 	Yes	Yes	Yes
	Non-flammable, non-toxic gas cylinders	<ul style="list-style-type: none"> For the operation of mechanical limbs Also, spare cylinders of a similar size if required to ensure adequate supply for the duration of the journey. 	No	Yes	Yes

Good/article	Transport conditions	In checked baggage

		Pre-notification required			
	Oxygen or air, gaseous, cylinders	<ul style="list-style-type: none"> For medical use only. The cylinder must not exceed 5 kg gross weight. <p><i>NOTES:</i></p> <ul style="list-style-type: none"> Personal oxygen cylinders may not be used on board; if required, company oxygen supplies will be provided for this purpose. Liquid oxygen systems are not permitted. 	Yes	Yes	Yes
	Portable medical electronic devices as e.g. Automated External Defibrillators (AED), Nebulizer, Continuous Positive Airway Pressure (CPAP) containing lithium metal or lithium ion cells or batteries	<ul style="list-style-type: none"> For medical use only. No more than 2 spare batteries in carry-on baggage only <ul style="list-style-type: none"> these batteries must be individually protected to prevent short circuits. Each installed or spare battery must not exceed the following <ul style="list-style-type: none"> for lithium metal batteries, a lithium content of not more than 8 grams, or for lithium ion batteries, a watt-hour rating of not more than 160 Wh 	Yes	Yes	Yes
	Radioisotopic cardiac pacemaker or other devices (including those powered by lithium batteries)	Provision: Implanted into a person only.	No	No	No
	Radiopharmaceuticals	Contained within the body of a person as the result of medical treatment.	No	No	No

Good/article	Transport conditions	In checked baggage			
		In hand baggage			
		Pre-notification required			
	Safety matches	<ul style="list-style-type: none"> 1 small packet of safety matches (struck only by the striking surface on the packet) per person Only permitted if carried on one's person <p><i>NOTE: "Strike anywhere" matches are not permitted.</i></p>	No	No	No
	Wheelchairs or other battery-powered mobility devices with spillable batteries	Mobility aids powered by spillable (wet) batteries may only be transported as cargo. <i>NOTE: this is an operator's variation to the IATA Dangerous Goods Regulation.</i>	Yes	No	No
	Security-type equipment such as attaché cases or cash boxes/bags incorporating dangerous goods, such as lithium batteries and/or pyrotechnic material	<ul style="list-style-type: none"> The equipment must be equipped with an effective means of preventing accidental activation. Full compliance with the IATA Dangerous Goods Regulations and transport conditions has to be proved. 	Yes	No	Yes
	Spare lithium metal or lithium ion cells or batteries for consumer electronic devices	<ul style="list-style-type: none"> Up to 2 spare cells or batteries per passenger. Batteries must be individually protected to prevent short circuits. 	No	Yes	No
	Wheelchairs or other battery-powered mobility devices with non-spillable batteries	<ul style="list-style-type: none"> The battery shall be securely attached to the wheelchair or mobility device. The battery terminals are protected from short circuits, e.g. by being enclosed within a battery container. 	Yes	No	Yes
